The Master of Arts in Clinical Mental Health Counseling, with Art Therapy concentration (CMHCAT) prepares graduates for both licensure as professional clinical mental health counselors and professional art therapists. Students learn to aid clients in exploring personal potentials and problems through visual and verbal expression.

- Students gain 800 hours of clinical experience, including individual and group work with diverse populations across the developmental spectrum, and in a variety of settings based on the student's specific interests.
- Graduates are prepared to work in a variety of clinical, educational and human service agencies, including hospitals, children's agencies, mental health and counseling centers, correctional and geriatric facilities, hospice care and wellness centers.
- Graduates meet requirements for counselor and art therapist licensure eligibility in Ohio (LPC/LPCC and LPAT), national art therapy credentials (ATR/ATR-BC), and may meet the requirements for licensure in most states. Students are also eligible to become a National Certified Counselor (NCC).

ACCREDITED BY:

CACREP ACCREDITED

CAAHEP

CAAHEP accreditation is conferred on the recommendation of:

ACATE
Accreditation Council for Art Therapy Education

Clinical Mental Health Counseling with Art Therapy
