

UNDERGRADUATE PROGRAM

# Education

## Careers

The teaching profession remains a rewarding, worthwhile, and respected career. In today's changing world, opportunities exist for teachers who are well prepared, flexible, and adaptable. There is a demand for teachers in the far Midwest, West, and South, as well as opportunities closer to home.

Our graduates secure jobs at Cleveland Municipal School District, Cuyahoga Community College, Beaumont School, Bedford City Schools, Kingston High School, and more.

## Earn a bachelor's and master's degree in five years to prepare for a rewarding career in P-12 educational settings.

Ursuline's undergraduate education program is a 4+1 bridge program. As an undergrad, you'll pursue a major that interests you and supports the licensure area you plan to pursue. (That's the 4.) You'll take 12-15 credits of education courses that will provide the foundation you'll build upon at the master's level. Once you earn your BA, you'll enter our graduate teacher-licensure program, where you will complete your Master of Arts in Education in one year. (That's the 1.) You'll leave Ursuline College ready to apply for an Ohio 4-Year Resident Educator License to provide stimulating, engaging, and educationally challenging instruction in PK-12 settings.

**"I chose Ursuline for the small class sizes and it felt like home as soon as I stepped foot on campus."**

<b>AR, AT or MU</b>	One art, art therapy, or music course
<b>PH</b>	One philosophy course (300-level or higher)
<b>RS</b>	Two religious studies courses (one must be 300-level or higher)

## Bridge Program: Education, 4+1 Program

The fifth year of this 4+1 program will be your year in our Master Apprenticeship Program. MAP is an intensive one-year program that immerses you in the classroom during the school year and allows you to finish the foundational methods courses in the summer. Some of your MAP classmates will be graduates of other colleges who have decided to make a career pivot and become teachers. Together, you'll learn from master educators and join their professional networks.

Students will take 15 credits if they are planning to pursue licensure in primary education (PK-5), middle childhood (grades 4-7), or as an intervention specialist: mild/moderate needs (special education)(K-12).

Students will take 12 credits if they are planning to pursue licensure in any one of the four AYA (grades 7-12) areas or in multi-age (PK-12) visual arts.

The remainder of courses are determined by the major you pursue as an undergraduate.
