⋆ in-person or 100% online
^ hybrid format
‡ will transition to Business Studies degree starting in Fall 2027

Complete a respected bachelor's degree that will help you launch—or advance—your career.

Our undergraduate students transferred here from other institutions for many reasons. Each story is unique: maybe the college they chose after high school didn't meet their needs; maybe life circumstances required a shift; or maybe their goals have changed.

There are as many stories as there are students. However, they all found the same thing when they joined the Ursuline community: a caring, collaborative environment where they are challenged, supported, and can thrive.

Need flexibility? We have 25 years of experience educating adult students in flexible class formats, with six programs available 100% online.

With almost 50% of our undergraduates transferring from other institutions, Ursuline has a proven history of providing quality education at affordable rates for all students.

Scan the QR code for an unofficial transfer credit evaluation.
