

Career FIT

A signature experience

Ursuline offers Career FIT in partnership with the experts at Future Plans, the company that developed our easy-to-use assessment. Through this assessment, you'll discover your:

- Interests
- Work Values
- Abilities/Aptitudes
- Personality Type

Your results will provide your Career Coach with vital information to help them guide you as you make important life decisions.

Explore high-demand careers and equip yourself with the skills employers want.

Career success requires key professional skills that aren't typically taught in college classrooms. At Ursuline, our Career FIT program enables you to earn certification in the very skills employers say they're looking for in new hires.

It starts with an assessment of your strengths and interests. Next, your personal Career Coach will help you unpack the results of that assessment. Together, you'll discuss your match to an in-demand career and map out an educational and internship path to get there. Then you'll complete online modules to earn certification in up to five key professional skills – providing the proof employers say they want!

"I was able to explore several fashion industry positions through internships which led to my post-graduate career."
