# Bridge RN-BSN-MSN

## Curriculum Guide

Registered nurses (RNs) who hold an associate degree in nursing from a community college or a diploma in nursing from a three-year hospital-based program and who do not hold bachelors or master's degrees are eligible for the RN-MSN curriculum sequence. These RN students must apply through the Ursuline College Adult Program (UCAP) but must declare interest in pursuing the RN-MSN sequence upon admission. The student must also meet criteria for admission to MSN graduate program (see below). These students will pursue all undergraduate level college core courses as well as the required RN-BSN level nursing courses through UCAP with the exception of NR 265 Evidence-Based Professional Nursing Practice (BSN level course) and NR 205 Pathophysiology (undergraduate level course). All RN-BSN courses in UCAP are online. The

MSN level bridge course, NR 532 Introduction to Evidence-Based Practice will substitute for NR 265, and the MSN level bridge course, NR 540 Advanced Physiology/Pathology, will substitute for NR 205.

After these courses are completed, the student receives the BSN degree and continues into the established MSN sequence of courses. Students progressing into the MSN program must receive a 3.0 or higher on their BSN transcript and must have at least 1 year of experience as a registered nurse. The student must select a specialty MSN track by pursuing the Adult-Gerontology Primary Care Nurse Practitioner, Family Nurse Practitioner, Adult-Gerontology Clinical Nurse Specialist, Adult-Gerontological Acute Care Nurse Practitioner or Leadership.

Graduate Admission

## Application

Students must apply for and be accepted into the RN-BSN program. Then complete the MSN application for admission into the graduate program. At the time of application, RN-MSN applicants are required to have a cumulative GPA 3.0 or better of transfer coursework OR undergraduate degree GPA of 3.0 or better.

## Adult–Gerontology Primary Care Nurse Practitioner (AGNP)

An Adult–Gerontology Primary Care Nurse Practitioner (AGNP) provides patient care either independently or as part of an adult acute care team. There is an emphasis on health maintenance, disease prevention, counseling and patient education. The track is 39 credit hours total.

## RN–BSN–MSN: Adult–Gerontology Primary Care Nurse Practitioner
