# Online Bachelor of Science Respiratory

**Career Outlook** 

Care

Employment of respiratory therapists is projected to grow 14 percent by 2031.

As a respiratory therapist with an advanced degree, you may be eligible for any of the following roles:

- Clinical specialist
- Department manager
- Clinical educator
- Research associate
- Medical Sales professional

### **Affordability**

- All classes are charged per-credit-hour, maximizing your budget.
- Some employers offer tuition reimbursement for their employees.

Ursuline College is currently in the process of seeking CoARC accreditation for a respiratory care program. However, Ursuline College can provide no assurance that accreditation will be granted by the CoARC.

# Future-proof your career as a respiratory therapist.

With Ursuline's new two-year, 100% online respiratory care bachelor's degree program, and our generous credit transfer policies, you can easily turn your associate's degree into a Bachelor of Science degree—the new industry standard by 2030.

Building on our 75-year legacy of healthcare education, this program meets the needs of Registered Respiratory Therapists (RRT) in an affordable, convenient, and work-friendly format.
