NURSING

Careers

Nurses today work autonomously in a variety of acute care hospitals, long-term care facilities and community-based agencies. As a nurse, you might choose to pursue a career as one of the following:

- Nurse practitioner
- Nurse educator
- Administrator
- Clinical Specialist
- Consultant

Ursuline's bachelor's level nursing graduates have a 100% job placement rate, post-licensure.

Largest Employers of Nursing Alumni

- Cleveland Clinic Foundation
- University Hospitals of Cleveland
- The Metrohealth System
- Hospice of the Western Reserve
- Department of Veterans Affairs
- Hillcrest Hospital

Provide skilled, compassionate care in a field with a huge demand for your talent.

A National League for Nursing Center of Excellence, The Breen School of Nursing at the Ursuline College Campus of Gannon University is one of the most respected nursing programs in the country. Our faculty are regularly invited to speak at conferences across the U.S. and internationally, and our graduates are recruited for positions in top research hospitals in Cleveland and beyond.

Students in the Bachelor of Science in Nursing (BSN) program learn in a high-tech skills lab that mimics a hospital ward. You'll pursue a holistic, values-based education through a curriculum that emphasizes patient care and teamwork. In fact, ours is one of the only nursing programs in the U.S. to earn an endorsement from the Agency for Healthcare Research and Quality, and all graduates leave our program TeamSTEPPS certified.

"The high standards set by Ursuline have taught me to set the bar high for myself... There is truly no better place to obtain a nursing degree."
Rachel J.
Nursing graduate

Nursing

COURSE REQUIREMENTS

In addition to the nursing courses, students are required to complete the Liberal Core Curriculum. For the most up-to-date course information, please visit our website.

BSN Honors Program

The BSN Honors Program promotes dynamic community service, professional organization participation, application of evidence-based practice, leadership development and the cultivation of research and scholarly presentation skills. Honors students will have the opportunity to network with community leaders, participate in community service learning, develop a scholarly project, and finally, work alongside a faculty mentor who will guide the scholar's research and successful completion of the honors program.
