Become a nurse in just 15 to 24 months with our accelerated BSN program.

Do you have a bachelor's degree in different field but want to be a nurse? Our Accelerated Bachelor of Science in Nursing (ABSBN) gets you there faster with more career options. **In the time it takes to complete an associate degree in nursing, you can earn an in-demand Bachelor of Science in Nursing (BSN)**—the preferred degree of most major hospitals and health care employers.

- **With our full-time, daytime degree format, you can be ready to sit for your RN licensure exam (NCLEX) when you successfully complete our program in just 15 months.**
- **Need a little more time so you can work while you prepare for your new career? Try our part-time, 24-month, evening/weekend option.**

The Breen School of Nursing and Health Professions has a 75-year history of nursing excellence. Here you learn in our high-tech skills labs that mimic a real-world hospital setting, complete with state-of-the-art 3D, virtual reality technology. Our holistic, values-based curriculum emphasizes patient care and teamwork. More than half of your clinical hours will be one-on-one learning with your provided preceptors, who will begin your immersion into the culture of nursing. It is one of the few US nursing programs endorsed by the Agency for Healthcare Research and Quality. All graduates leave our program Team STEPPS certified.

"Ursuline shaped me into a well-rounded nurse—the best nurse I can be."

Kayla Bentley, BSN
Class of 2021

SDAP
