## **Credit for Military Training and Alternative Credit Options**

In keeping with Ursuline's personal approach to education, the College recognizes the unique experiences of each individual by providing students the opportunity to receive credit for what has already been learned. Prospective students who are current members of the armed services, or those who have been honorably discharged, may transfer up to 20 credits for military training and experience.

Credits toward your degree may also be earned through CLEP, test-outs, and service learning. In total, students are eligible to earn a total of 43 alternative option credits through a combination of their military training, CLEP, test-outs, and service learning.

## **No Limit on Transfer Credits**

There is no limit on the number of credits that can transfer from regionally accredited institutions; however a minimum of 32 credits must be completed at Ursuline College. Our counselors will work with you to review your credits even before you apply for admission.

## Military and Veteran Support Services

At Ursuline, our goal is to provide our military and veteran students with the necessary support they need and deserve!
